SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

37-AA-0906**12. Legal Description of Facility:**

1044 West Washington Avenue Escondido, County of San Diego, CA 92025

The property's legal description is in Exhibit D of 2000-58-CUP dated March 26, 2002 located in Appendix D-1 of Transfer Processing Report dated March 2013.

13. Findings:

- a) A County-wide Integrated Waste Management Plan was approved by the Department of Resource Recycling and Recovery (CalRecycle) in March 2011. Pursuant to Public Resource Code (PRC) §50001(b), this facility is not required to comply with PRC 50001. This solid waste facility is not a disposal facility or a transformation facility, nor a facility which is designed to, and which as a condition of its permit, will recover for reuse or recycling at least 5 percent of the total volume of material received as described in PRC §50001(a) paragraphs (1) and (2).
- b) The LEA has determined that the design of the facility would allow for the facility operations to be conducted in compliance with State Minimum Standards for Transfer/Processing Operations and Facilities, based on a review of the March 2013 Transfer Processing Report and an inspection conducted on May 21, 2013.
- c) This permit is consistent with standards adopted by the CalRecycle, pursuant to Public Resources Code, §44010.
- d) The LEA has reviewed and considered the information, including the environmental effects of issuing this Solid Waste Facility Permit (SWFP) contained in the Final Supplemental Environmental Impact Report, approved by the City of Escondido, dated March 2002 (SCH2001061086) and finds there are no significant unmitigable environmental effects arising out of the issuance of this SWFP.

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, hazardous waste, untreated bio-hazardous waste, waste containing more than 50% water, friable and non-friable asbestos, large dead animals or part thereof, and radioactive waste.

15. The following documents also describe and restrict the operation of this facility:

	Date		Date
Transfer Processing Report	<u>Mar 2013</u>	Notice of Intent - WDID 9 37S311184	<u>Jun 1999</u>
Conditional Use Permit 2000-58-CUP	<u>Mar 2002</u>	Final Supplemental Environmental Impact Report 2000-36 SCH2001061086	<u>Mar 2002</u>

16. LEA Conditions:

- a) The operator shall comply with all the State Minimum Standards for solid waste handling as specified in Title 14, CCR.
- b) The operator shall maintain a copy of this permit, the Transfer Processing Report (TPR), and access to State Minimum Standards for Transfer/Processing Stations at the site at all times.
- c) Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of a RFI amendment, to the LEA at least 180 days in advance of the change.
- d) Without prior written approval by the LEA to allow otherwise, the facility may only operate as described in the most recent version of the TPR. Any significant change as determined by the LEA would require a revision of this permit.
- e) This permit is subject to review by the LEA and may be temporarily suspended or revoked at any time by the LEA for sufficient cause, in accordance with Division 30 of the PRC, Part 4, Chapter 4, Article 2, Sections 44305 et seq.
- f) Stored recyclables and green waste shall not interfere with facility operations or cause a public nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of recyclables and green waste as necessary to protect public health or prevent a nuisance.
- g) Additional information related to compliance with this permit or the design and operation of this facility shall be furnished to the LEA upon request.
- h) The operator shall maintain, and keep current, records of the types and weights of materials received per day. These records shall include the final disposition of transferred waste and recycled materials.
